Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Project Overview:

Project Name: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Project Description: A ServiceNow Flow Designer automation that handles standard laptop orders from the employee request through approval, stock check, purchase order, asset record and notifications.

Project Version: 1.0

Testing Period: 24 February 2025 to 28 February 2025

Testing Scope:

Features and functionalities to be tested:

- Standard laptop catalog item and request form validation
- Automatic and manager approval, including escalation of pending approvals
- Stock check, laptop reservation and purchase order creation
- Asset record creation, stage notifications and the turnaround dashboard

User stories to be tested: USN-1 to USN-9 from the user stories document.

Testing Environment:

URL/Location: ServiceNow test instance (link to be provided by the project team)

Credentials (if required): Test accounts for the employee, manager and IT procurement coordinator roles (shared separately by the project team)

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Employee submits a standard laptop request	1. Open the service catalog and select Standard Laptop 2. Check that role, location and department are pre-filled 3. Submit the request	Request is created with pre-filled details and a confirmation is shown	Request created with pre-filled details; confirmation shown	Pass
TC-002	Request with missing or invalid details (negative)	1. Open the Standard Laptop form 2. Leave the cost center blank 3. Submit the request	Request is not created and a clear error message is shown	Request blocked; error message shown for the cost center	Pass
TC-003	Manager approves a request	1. Submit a request from a role needing approval 2. Open the approval email as the manager 3. Click approve	Approval is recorded and the flow moves to stock check	Approval recorded; flow moved to stock check	Pass

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-004	Auto-approval for a pre-approved role	1. Submit a request as a pre-approved role 2. Check the request status	Request is approved automatically with no manager task	Approved automatically; no manager task created	Pass
TC-005	Laptop out of stock	1. Set the laptop model stock to zero 2. Submit and approve a request 3. Check purchase orders	Purchase order is created and sent to the assigned vendor	Purchase order created and sent to the vendor	Pass
TC-006	Asset record and notifications on delivery	1. Mark the laptop as delivered 2. Check the asset record 3. Check the requester's email	Asset record is created and assigned; delivery email is sent	Asset assigned to the employee; delivery email received	Pass

Bug Tracking:

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	Escalation email is sent twice for one pending approval	1. Submit a request needing approval 2. Wait for the escalation time 3. Check the manager's inbox	Medium	Closed	Duplicate trigger in the flow was removed and retested
BG-002	Error message for a missing cost center is unclear	1. Open the Standard Laptop form 2. Leave the cost center blank 3. Submit	Low	Closed	Message reworded to name the missing field
BG-003	Approval button is hard to tap on a small mobile screen	1. Open the approval email on a phone 2. Try to tap Approve	Medium	In Progress	Layout change under review

Sign-off:

Tester Name: _____

Date: _____

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.

Note: the test results, bugs and dates above are sample entries for illustration. Replace them with your own UAT results before you submit.
